

KingStop® 100

PVC waterstops

DESCRIPTION

KingStop 100 are 10 mm thick waterstops extruded from virgin elastomeric polyvinyl chloride rubber, designed in precision engineered profiles to stop any possible leakage from construction, contraction and expansion joints in cast-in-place concrete elements.

The principal advantage of KingStop 100 is that they are self supporting, which enables their use without the need for tying to reinforcement steel through eyelets.

APPLICATIONS

KingStop 100 is suitable for use in construction, contraction and expansion concrete joints in the following structures:

- ☐ Water reservoirs.
- ☐ Waste water treatment plants.
- ☐ Storage tanks.
- ☐ Dams.
- ☐ Swimming pools.
- ☐ Subways, tunnels and culverts.
- ☐ Canals, pumping stations and underground chambers.

ADVANTAGES

- ☐ Has no effect on the quality of potable water.
- ☐ Self supporting waterstop.
- ☐ Hollow center bulb for expansion joints to accommodate movement.
- ☐ Prefabricated junction pieces.
- ☐ Easy to join on site.
- ☐ Resistant to wide diluted chemicals including hydrocarbons.

STANDARDS

KingStop 100 complies with BS 2571:1963 and BS 2782. U. S. Corps of Engineers CRD- C 572-74.

METHOD OF INSTALLATION

KingStop 100 profiles should be fixed in split stop-end shutter.

SITE WELDING

The key to a leak free waterstop network is correct on-site jointing. KingStop 100 is made of thermoplastic PVC, and can be easily welded using suitable heating processes, such welding knife.

TECHNICAL PROPERTIES

Colour:	Black & blue
Tensile strength: (Typically = 14 MPa)	> 13.0 MPa
Elongation at break:	> 300 %

Cut the edges to be welded in a sharp and straight line then secure the ends in a welding jig. Use the welding knife between the ends, until an even, molten bead appears.

Remove the welding knife and press the ends firmly together. Consult KINGKRETE technical departments for further details.

JUNCTION PIECES

Full range of factory made junction pieces is available, for the following:

- ☐ Flat and vertical cross.
- ☐ Flat and vertical T.
- ☐ Corner pieces.
- ☐ Flat L.

Other non-standard pieces can be made as may be required by project shop drawings.

PACKAGING

KingStop 100 is available in 12 meter rolls.

Profile code	Overall width* (mm)	Web thickness (mm)	Center bulb width (mm)	Roll length (m)
AB223	200	10	-	12
AB224	200	10	17	12
AB231	250	10	-	12
AB232	250	10	17	12
AB233	250	10	-	12
AB234	250	10	17	12
AB303	305	10	-	12
AB304	305	10	17	12

* Variation in the above numbers can reach $\pm 4\%$.

PROFILES AND DIMENSIONS

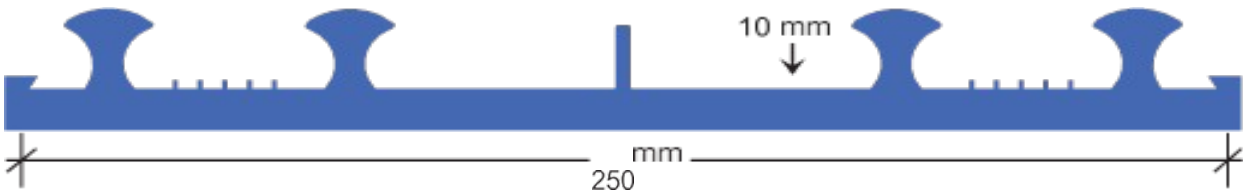

Center fix for construction joints (AB233)

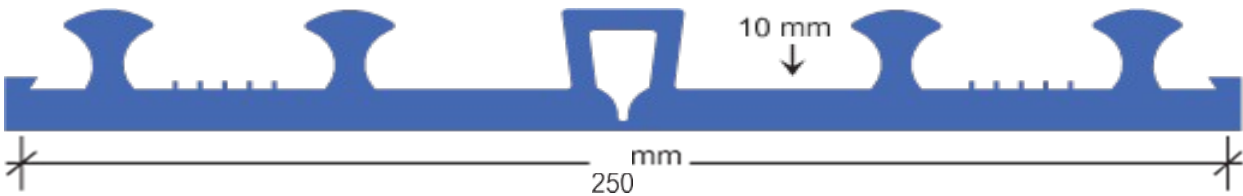

Center fix for expansion & construction joints (AB234)

External fix for construction joints (AB231)

External fix for expansion & construction joints (AB232)

STORAGE

KingStop[®] 100

Shelf life is 1 year when stored under cover, out of direct sunlight and protected from extremes of temperature.

Failure to comply with the recommended storage conditions may result in premature deterioration of the product or packaging. For specific storage advice consult KingKrete's Technical Services Department.

HEALTH AND SAFETY

As with all chemical products, care should be taken during use and storage to avoid contact with eyes, mouth, skin and foodstuffs. Treat splashes to eyes and skin immediately. If accidentally ingested, seek medical attention. Reseal containers after use. Use in well ventilated areas and avoid inhalation.
